

Dear FCC,

I am an XM subscriber and I request that you reject NAB's petition 04-160. This petition centers around the "traffic and weather" services on XM. I do not live in an area currently serviced by this service, however I do want the service available to me should it be offered. I currently pay for this service and this service was a factor in my decision to enroll in satellite radio. Please do the right thing for free enterprise and reject petition 04-160. Thank you for your time in this matter.

Tim Anderson
